- c) New Global Outreach

Together, they make real change possible – from fighting poverty to promoting health and well-being.

Introduction

NGOs & Volunteering

- Promote health
- Bring hope
- Drive sustainability

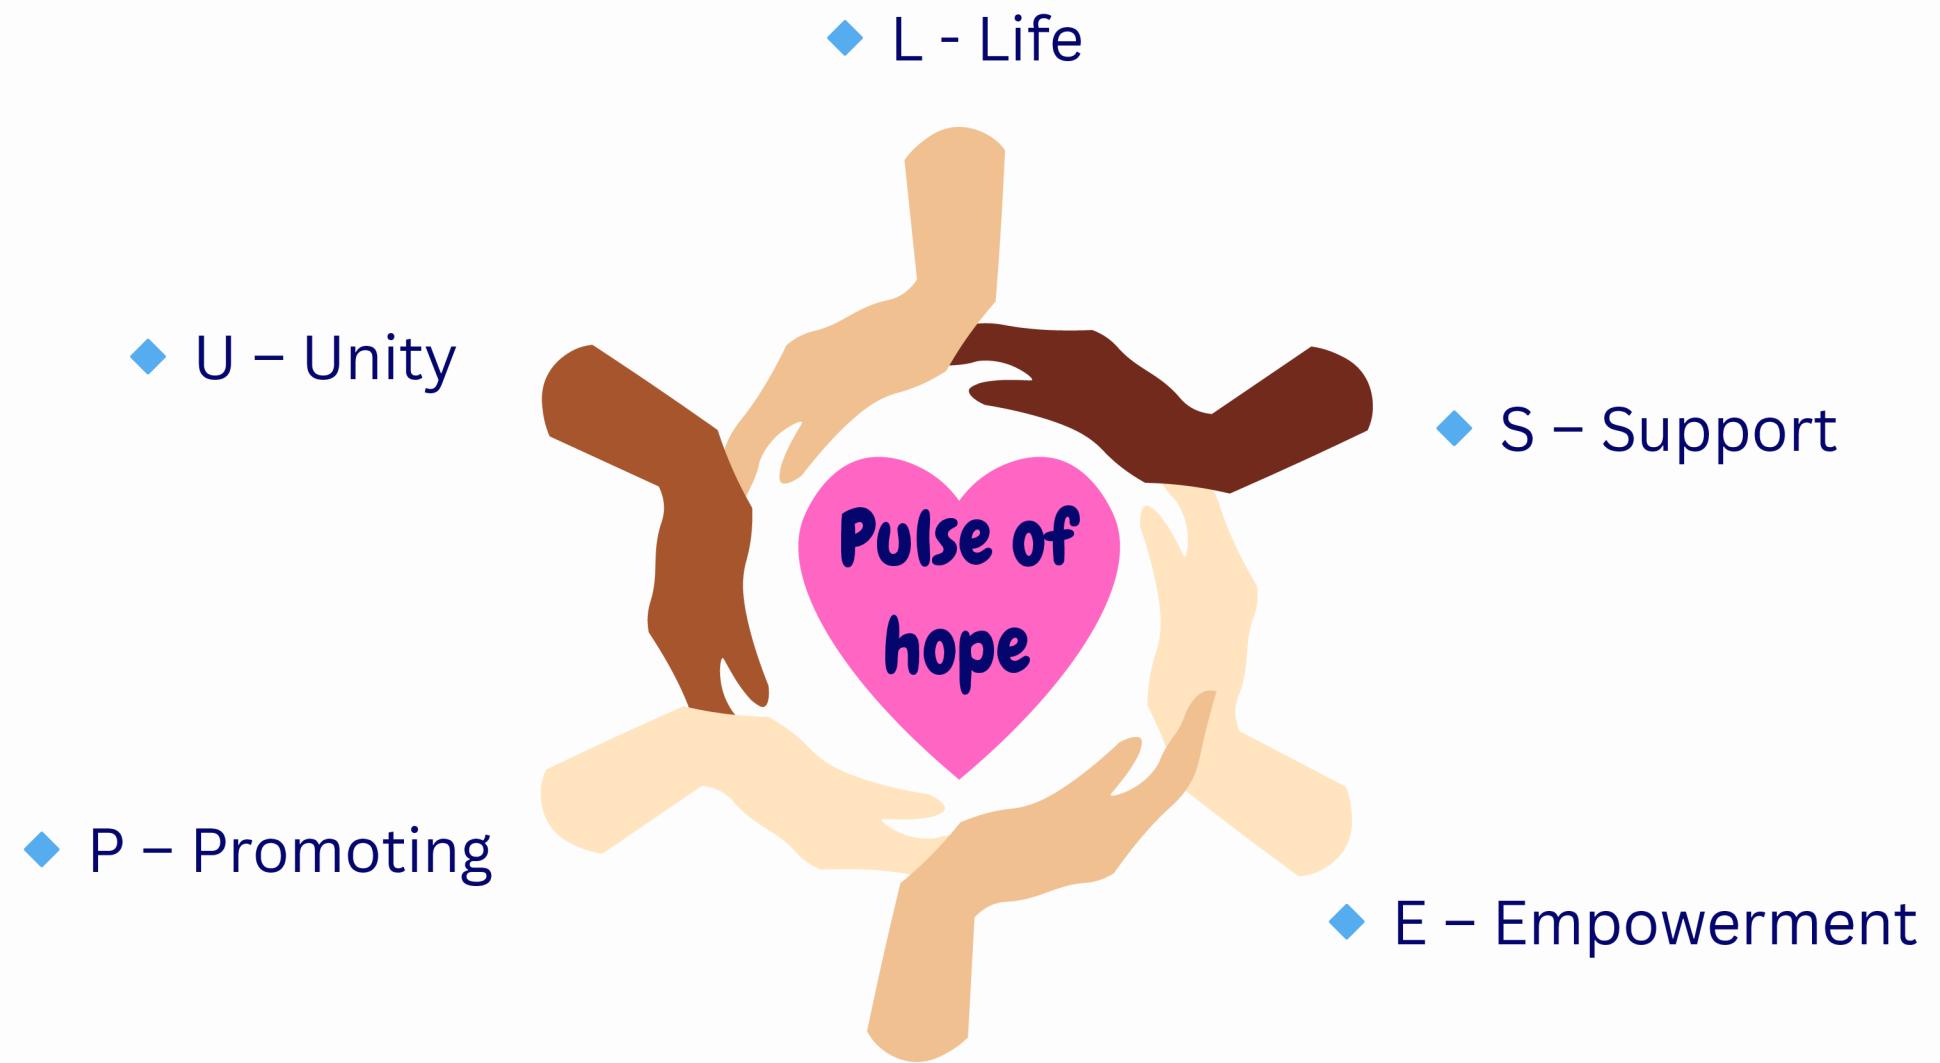

"Despite many challenges & obstacles, they make a real difference."

Name of the NGO

&

Name of the group :

"Pulse of Hope – Beating for a Healthier Tomorrow."

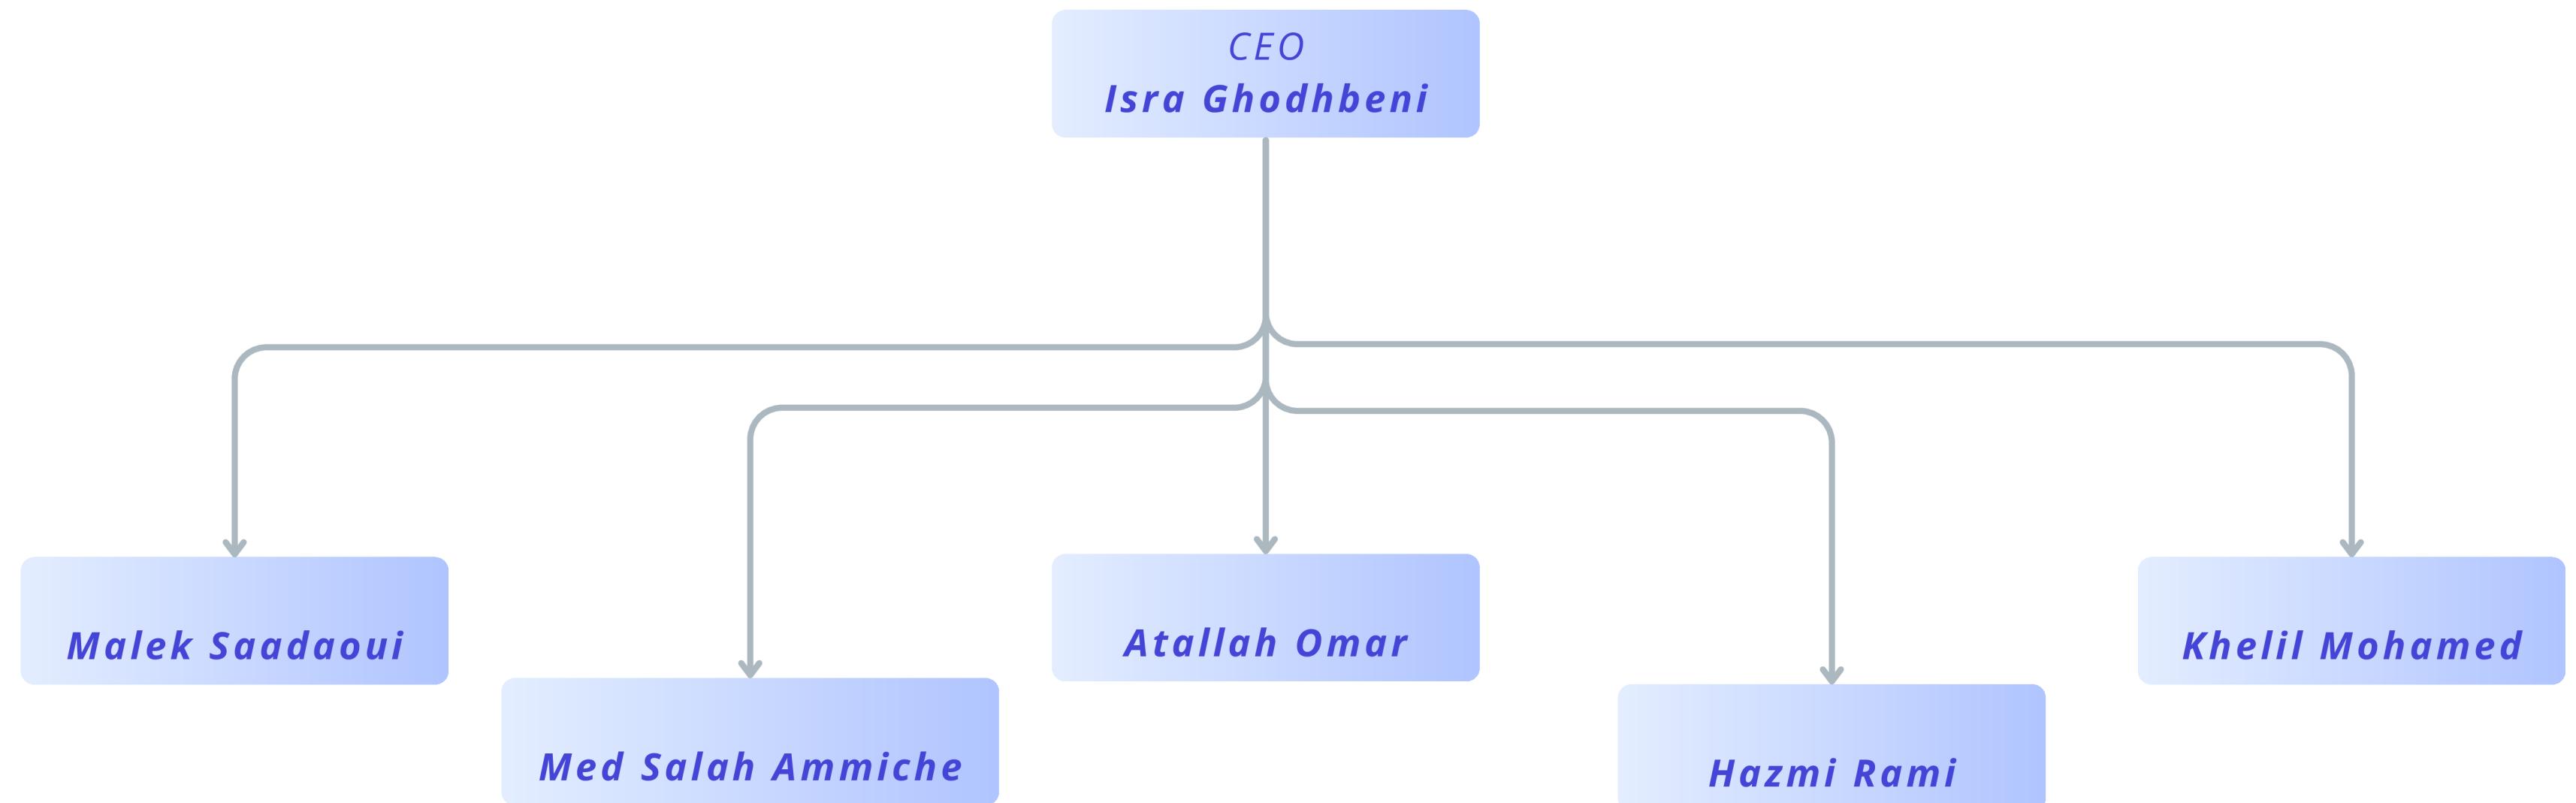

Luminara

Logo of NGO :

“Beating for a Healthier Tomorrow”

Introduction of the board of directors

Problem statement :

Chosen SDG

Good health and
well_being

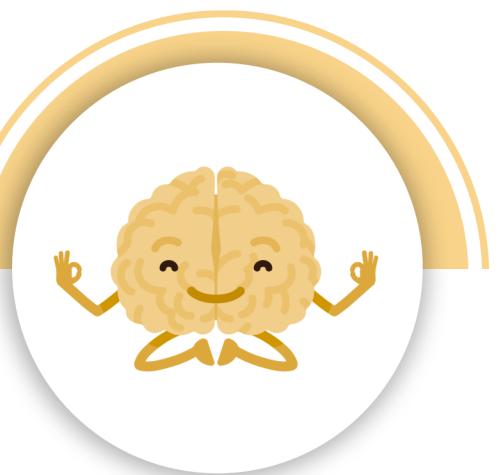

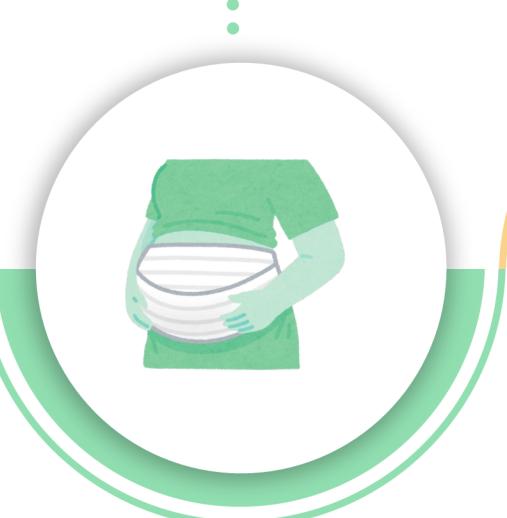

"Each year, over **8 million** preventable deaths occur globally due to lack of access to healthcare."

"**In Tunisia**, rural areas still lack sufficient healthcare infrastructure."

Healthcare Inequalities in Rural Tunisia

Doctor distribution

Urban areas like Tunis have 3.4 doctors per 1,000 vs 0.5 in Sidi Bouzid

Access to facilities

Only 55% live near a clinic; far less in rural zones

Vaccination rates

Rural areas: 37-40% vaccinated vs 60%+ urban.

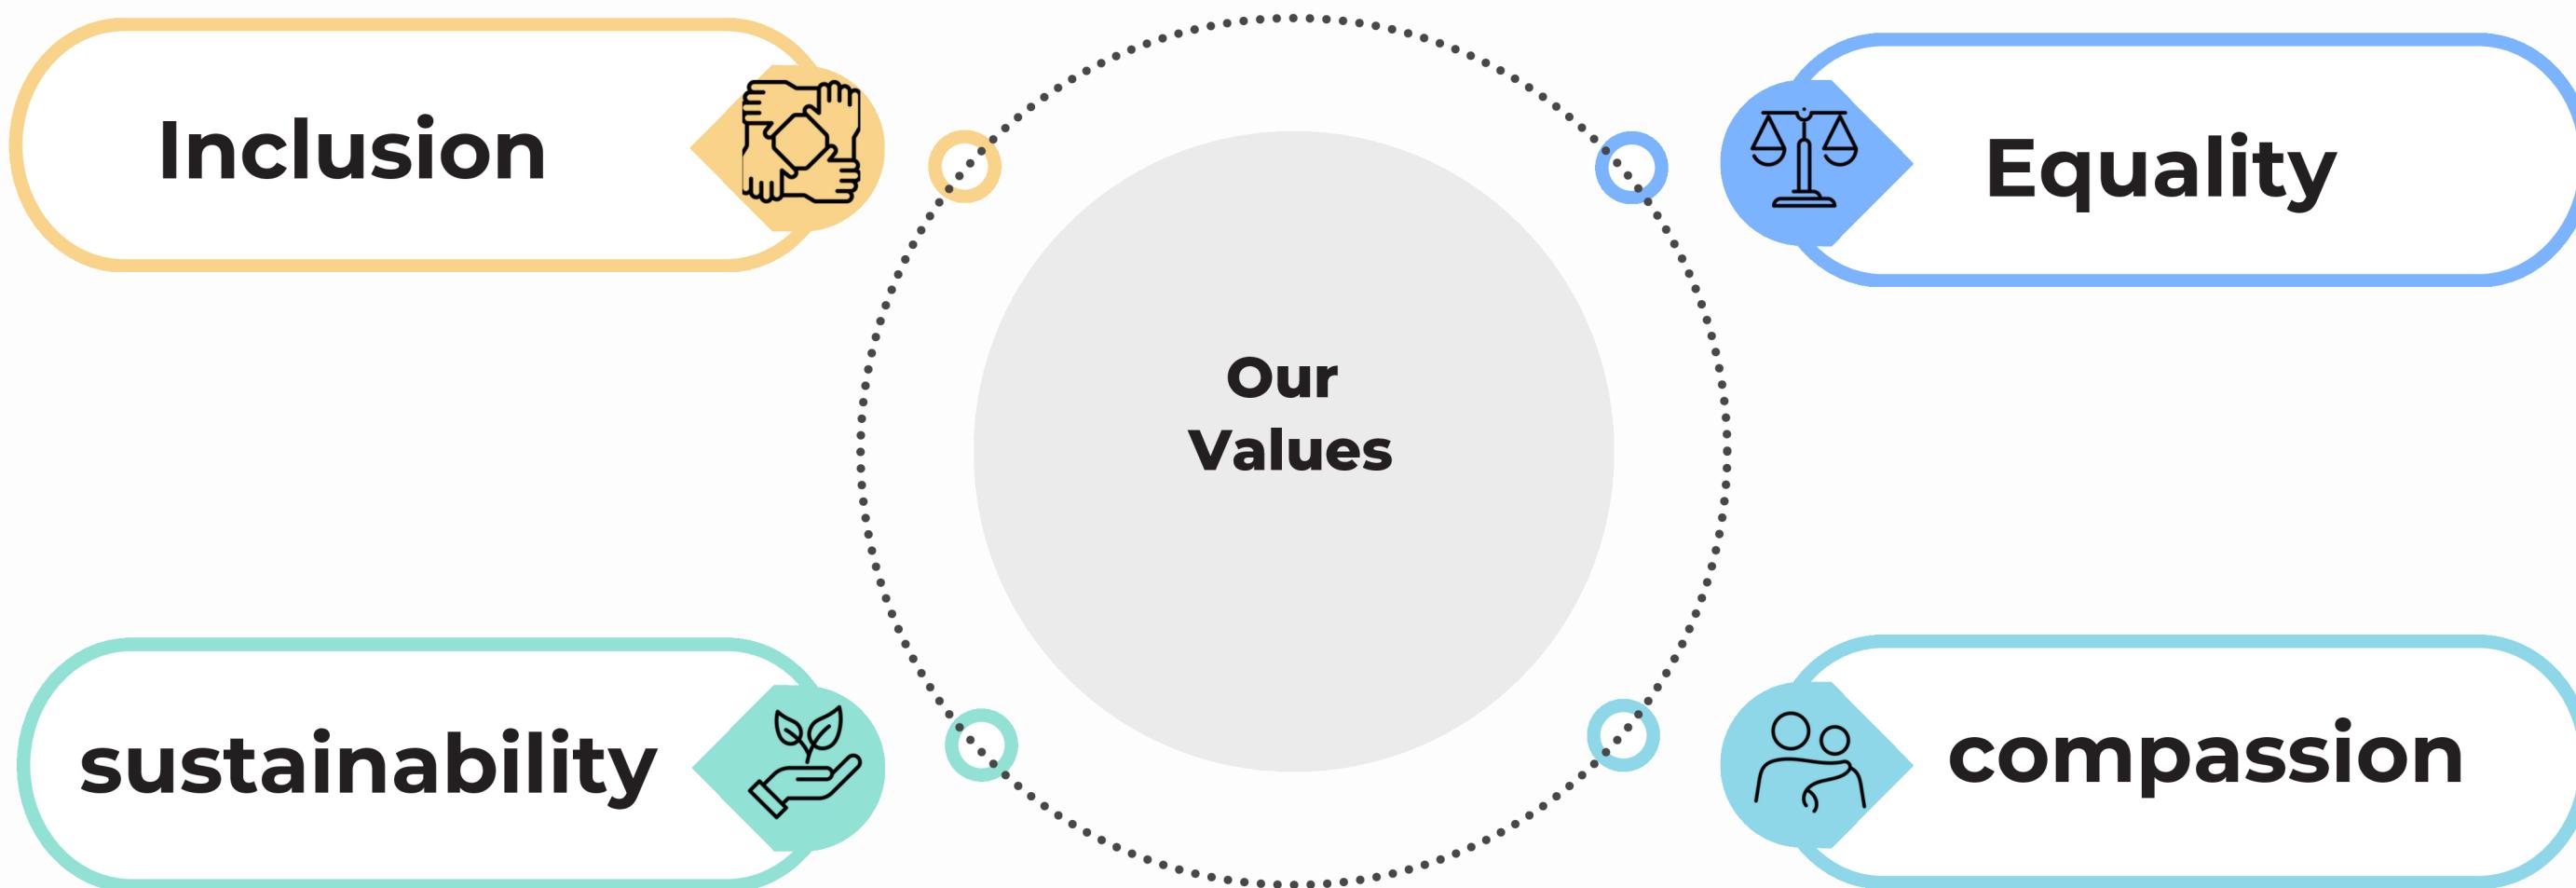

Mental Health

Rural patients wait 8.5 years vs 2 years urban to seek help

Maternal & Child Health

Maternal deaths up to 3x higher in rural areas

Values :

Vision:

**“A healthier Tunisia where everyone
has access to healthcare and well-being.”**

Mission (solutions, proposals, action plan)

1/solutions:

Set up temporary medical tents where volunteer doctors provide care in rural areas.

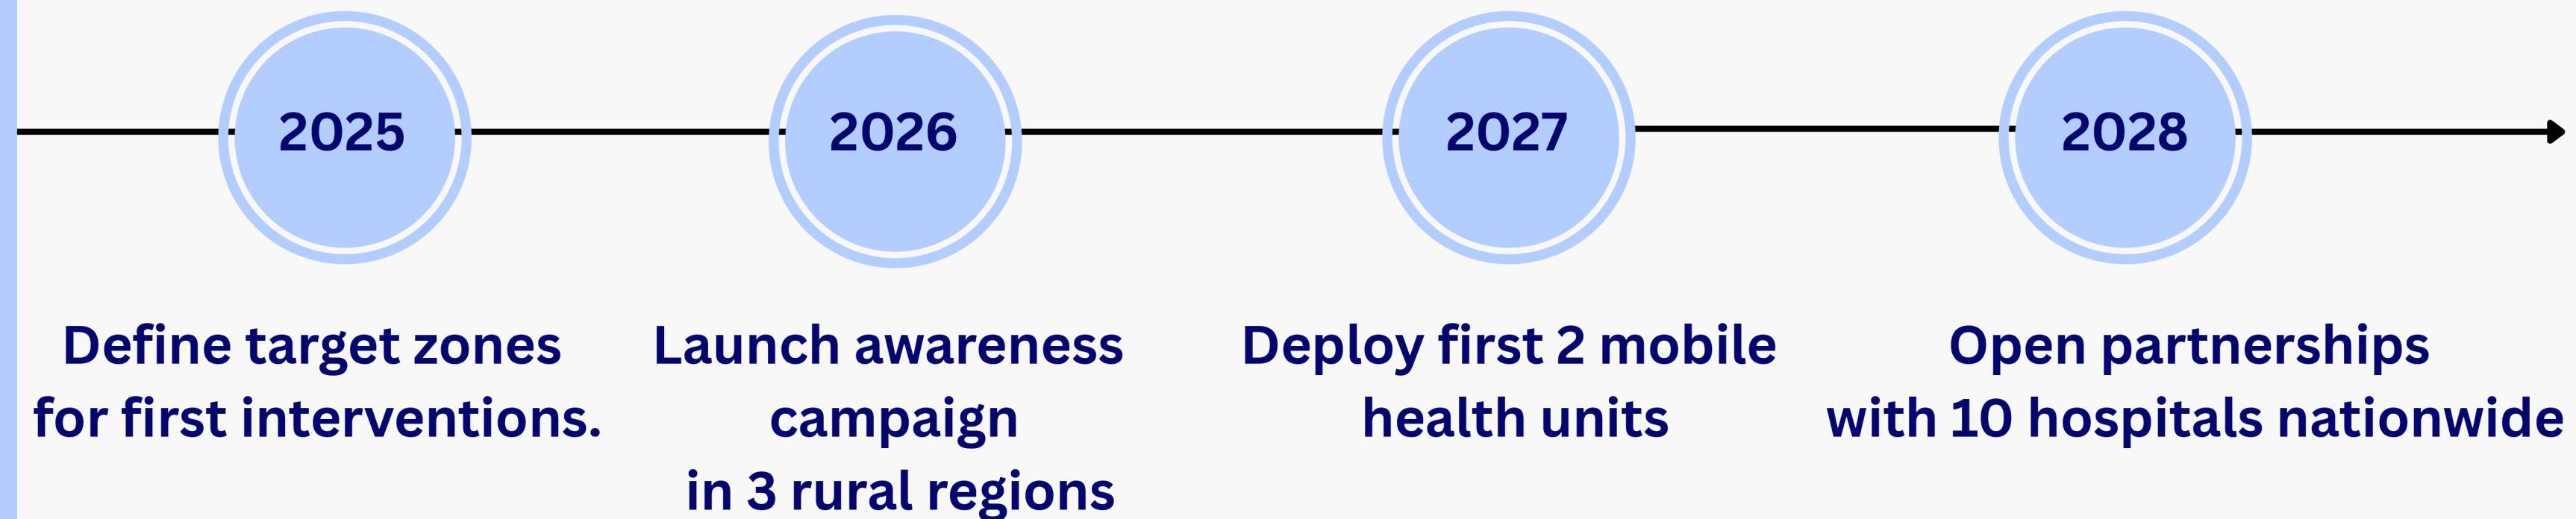

Health Education Campaigns:
workshops on hygiene,
vaccination,
and maternal care

Partnerships:
collaborate with hospitals, NGOs,
and universities
to donate equipment and medicine.

2/action plan

Possible challenges & obstacles

- **Limited Resources :**
Insufficient medical supplies, equipment, or funding for mobile clinics and tents.

- **Community Engagement:**
Resistance or low awareness among local populations, which can reduce participation in health initiatives.

- **Logistical Issues:**
Difficulties reaching remote areas due to poor infrastructure and transportation challenges.

Conclusion

Improving health and well-being in underserved areas is essential to reducing inequalities and achieving SDG 3 globally.

Collective action and community engagement are key to creating lasting impact on public health
